After months of construction, the Hilton Garden Inn off Salisbury Road is open for business.

The 104-room hotel caters to both transient and corporate guests with a variety of amenities from a heated saltwater pool to a smart meeting room.

In addition to lodging, the hotel, off Exit 49B on Interstate 77, offers a full-service bar and restaurant open to the public. The restaurant will be closed for dinner service and in-room dining until April 30, according to its website.

The \$13 million development brought an estimated 50 jobs and is expected to put the city's occupancy tax collection over \$1 million for the year.
