

## Hilton Garden Inn Istanbul Umraniye opens

**Hilton Garden Inn Istanbul Umraniye, the 17<sup>th</sup> and largest Hilton Garden Inn branded hotel in Turkey, has opened.** Managed by Canpark Gayrimenkul Yat. Tur. Ve Taah AŞ, the property offers 240 guest rooms, including seven suites.

"My team and I are thrilled to have opened Hilton Garden Inn Istanbul Umraniye, which offers comfortable and modern accommodation in a prime location. We look forward to brightening the stay of guests travelling to the area and providing them with unique offerings, such as our indoor pool with a retractable roof," said general manager Kemal Sinmez. "Our focus is to provide guests with the intuitive, heartfelt service they deserve and expect from the Hilton Garden Inn brand."

Located in Istanbul's financial and corporate district, Hilton Garden Inn Istanbul Umraniye is within close proximity to the city's Uskudar -Cekmekoy subway line in Yamanevler station, connecting to Maidens Tower, the Bosphorus, Old City & Historical Zone. The mid-market property is also situated within the Can Park Shopping Mall complex, which has a cinema, bowling and game centre, and more than 100 international branded stores.

Guests can dine on-property at Garden Grille Restaurant or Garden Lounge & Bar. The Pavilion Pantry is open 24 hours and features a complete selection of snacks, treats and cold beverages. The hotel features more than 450 square metres of flexible meeting space. Hilton Garden Inn guests are also entitled to complimentary Wi-Fi throughout the property, a 24-hour business centre, and a fitness centre with a temperature-controlled swimming pool.

Hilton Garden Inn Istanbul Umraniye participates in Hilton's customer loyalty programme, Hilton Honors. Members who book directly through preferred Hilton channels have access to benefits including a member discount, free standard Wi-Fi, as well as digital amenities that are available through the Hilton Honors app, where Honors members can check-in, choose their room, and access their room using a "digital key".
